At
Fenicia

Mobiliario we design
and create furniture that
captures and transmits the best
trends in decoration and lifestyle. In our
company, located in Spain, we have a team of
work with great knowledge of the sector. More
than three decades of experience of most of the
staff, combined with the vision and innovative
ideas of the youngest of the company, are
essential in the smooth operation and evolution of
the areas of design, component selection,
production and distribution.

For our collections we choose noble materials such
as natural veneers, high gloss lacquers or curved,
and we count among our suppliers with Spanish
industries of first level. All this to continue improving
and creating, each year, a collection that
surpasses the previous one, placing us among the
first manufacturers of modern furniture
in the national market.
